Percentage - 65.5%

About Me

As a dedicated front-end web developer, I possess a strong foundation in HTML, CSS, and JavaScript, as well as in-depth experience with the React.js framework and various other front-end frameworks. My proficiency in these technologies has enabled me to complete several projects building responsive and user-friendly websites and web applications. I'm passionate about collaborating with a dynamic team and leveraging my skills to deliver web experiences that make a positive impact on users. I'm excited to contribute my expertise to a team that values creativity, innovation, and excellence.

PROJECTS

Personal Blog Website

- A blog website is an online platform where individuals or organizations can publish regular written content on a particular topic or a variety of topics. These topics can range from personal experiences and opinions to news, reviews, tutorials, or analyses on a specific subject.
